

PFAS

What it is?

How does it spread?

The consequences?

What are PFAS?

The health risks of long-term exposure

Industry

Rain coat

Fire extinguisher

Pans

PFAS

Tap water

Food

Environment

Accumulation

Human
body

Plants

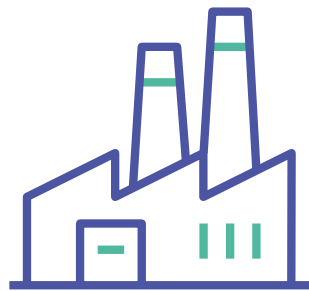

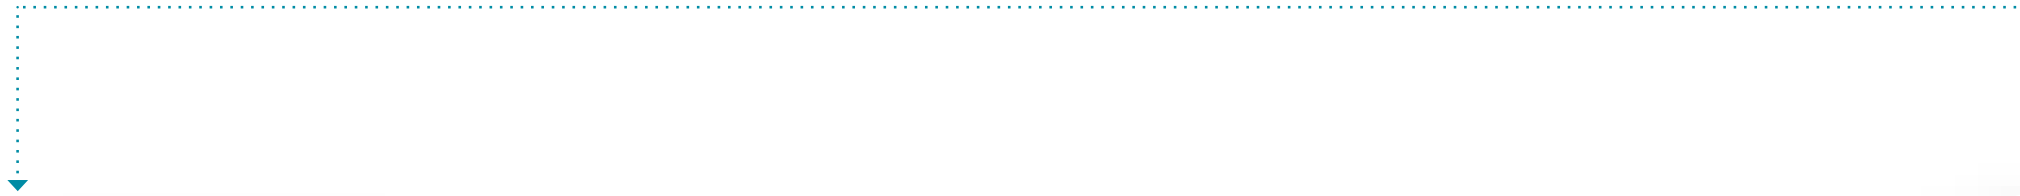

Animals

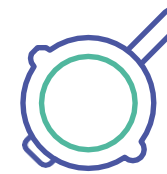

Local environment

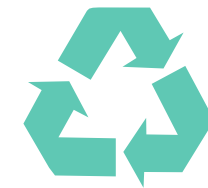

Where is it in and how does it get into the environment?

Emission from production

Emission through use

Emission from recycling

Emission from incineration & landfill

Worldview PFAS

The spread of PFAS

Through air

Through soil

Through product use and
waste streams

Through water

Through fauna
and flora
